

NHS
**National Institute for
Health Research**

Leicester Biomedical Research Centre

The trial is looking at a new drug for the management of **COPD** aimed at **reducing the number of exacerbations**

We are looking for 80 participants to join a 60 week trial

Have you been diagnosed with COPD?

A current or ex-smoker aged over 40?

The COPD-ST₂OP trial might be for you !

The trial is taking place at the
Leicester Respiratory Biomedical Research Centre
at Glenfield Hospital with Professor Chris Brightling

If you are interested in participating or receiving more information please contact the local research nurses on
